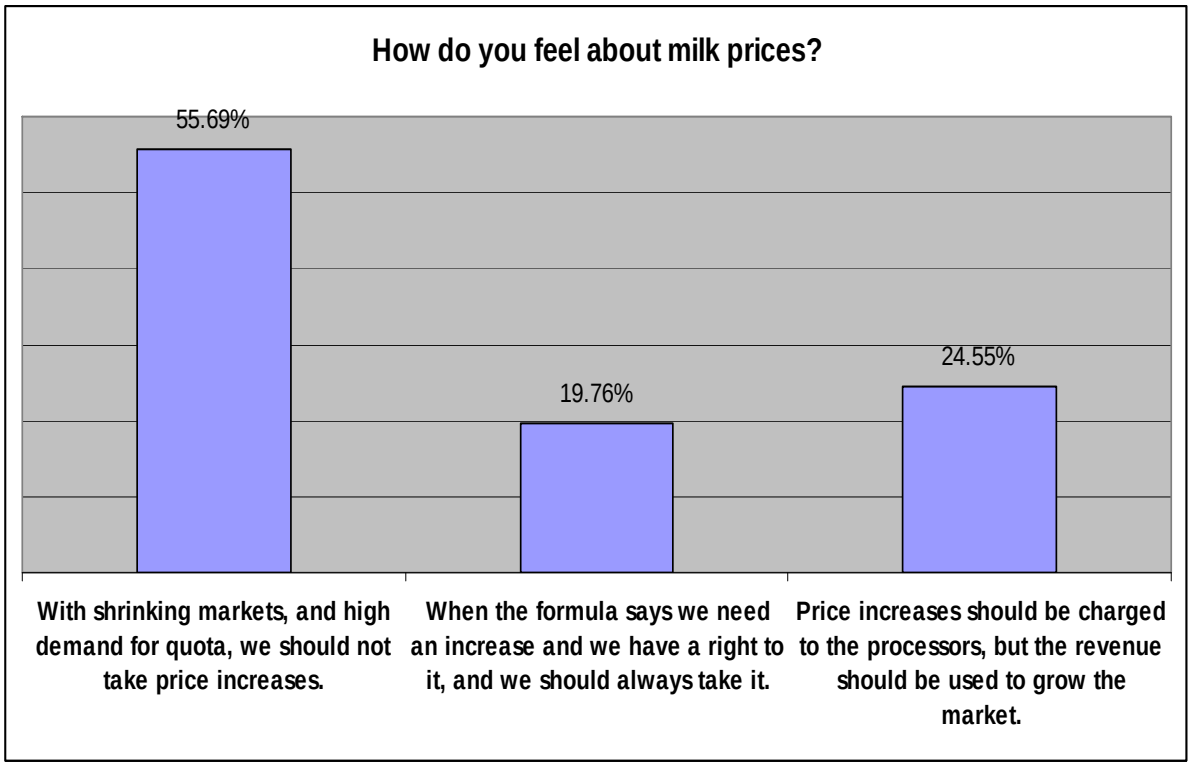
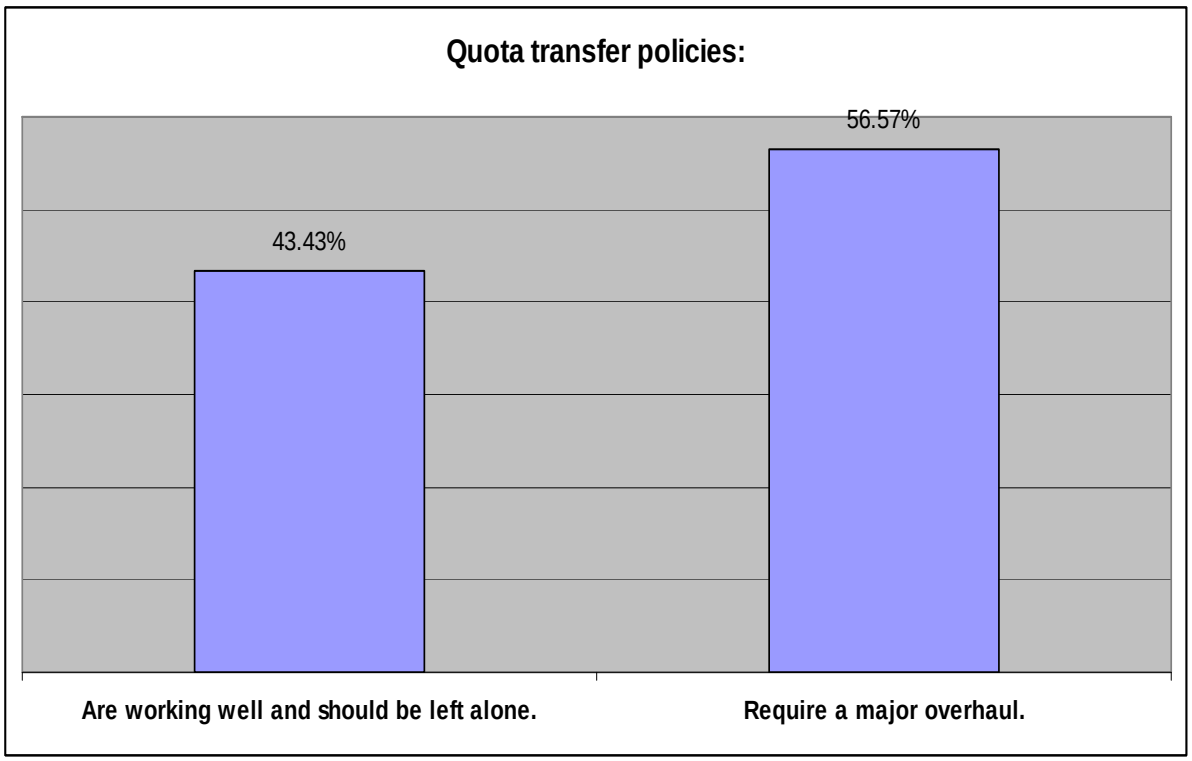
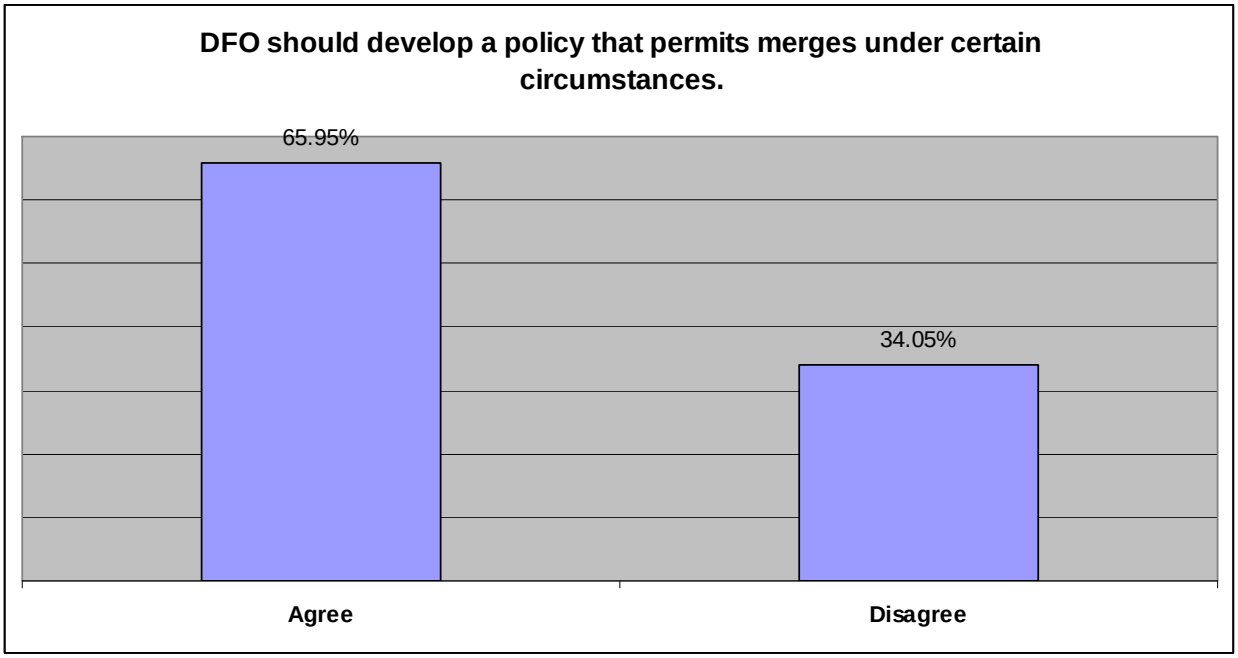
Extremely useful
Quite useful
Maybe good to know for the future
I will never use this info



How do you feel about milk prices?
55.69%
19.76%
24.55%
With shrinking markets, and high demand for quota, we should not take price increases.
When the formula says we need an increase and we have a right to it, and we should always take it.
Price increases should be charged to the processors, but the revenue should be used to grow the market.



Quota transfer policies:
43.43%
56.57%
Are working well and should be left alone.
Require a major overhaul.



DFO should develop a policy that permits merges under certain circumstances.

In 2008 a US speaker asked if you would give up the security of supply management for the freedom of a competitive marketplace.
82.22%
12.22%
5.56%
I want to keep supply management at almost any cost !
If quota access does not improve I might prefer an open market !
Who needs supply management! Give us a level playing field and we will play !
